

August 2022 Newsletter

We have moved!

At the end of July / beginning of August we moved from the office building we were in to a gorgeous barn conversion in the countryside we are lucky enough to be surrounded by! It is spacious and airy and even has some old farm equipment in the rafters! We settled in very quickly, and are all benefiting from the fresh air and natural light the office is flooded with. Our registered address has not changed, so you can still use that should you need to send us anything.

Aspire Channel Swim 2022

It is almost time for the Aspire Channel Swim Challenge – a challenge for swimmers of all ages to swim 22 miles, in any pool, over a 12 week period between 12th September and 5th December.

The challenge is great, because it is so flexible and doesn't need to be done in one go, and you can manage it over the 12 weeks to suit you! You don't have to complete it on your own either – you can do it between a group of you, whether it be your family, friends or even as a swim school!!

The challenge has been taking place for 23 years, and it would be amazing to see more swim schools getting involved.

For those of you who aren't familiar with the charity, "Aspire provides practical help to people who have been paralysed by Spinal Cord Injury, supporting them from injury to independence".

For more information on the Challenge, and the charity, please head over to www.aspirechannelswim.co.uk where you can find some great resources, and more information.

morsolutions.co.uk

As well as a new "home", we have a new website! We wanted the website to be a bit more interactive and more in keeping with the feel of our business, so we have had a bit of a revamp! If you haven't seen it yet, please have a look when you get a minute! We are always interested in your opinion, so please let us know what you think! (via Facebook or evenn@morsolutions.co.uk)

Upcoming Conferences

It is just a few weeks now until we get to see some of you at the Swim England Conference on Thursday 29th September in Solihull, where we will be exhibiting!

And a month after that, the STA's two day event on Friday 28th October (Pool Plant) and Saturday 29th October (Aquatics and Lifesaving) in Leicester. We will be exhibiting on both days, and sponsoring the STA's 90th Anniversary Networking and Entertainment evening on the Friday night.

If you have never been to the conferences, we really recommend them. They provide excellent opportunities to keep up to date with industry changes and trends, as well as the chance to hear from experts in various fields. It is also a brilliant place to build your teacher networks, and meet up with like-minded people – which in an industry where many of us are self employed

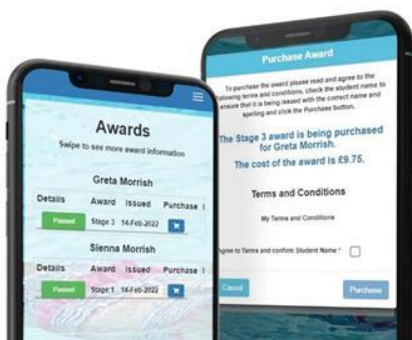

Both are open for booking, and we hope to see you lots of you at one, other or both!!

Did you know?

The information we sent out at the beginning of the year letting you know that your clients can now request or order certificates (for awards students have passed) via the Client Hub seems to have been missed by some of you. Request mode is used if awards are included in general fees, and order mode is for those who charge for them.

SwimSoft Online has a new management page that helps administrators see what needs to be issued (or printed if you use the certificate overprinting function within the software) and ensures fees, where applicable, are paid. For more information, have a look in the Client Hub section of the Knowledge Base or get in touch with the Support team.
