

The screenshot displays the 'Place Availability - Matched Courses' interface. At the top, it states: 'You are currently in Matched Courses mode which shows the selected class types that have corresponding day and start times. To view all available classes for the selected class types press the All Courses button found at the bottom of this page.' Below this is a 'Show Family Courses' button.

The main interface features a 'Filter summary' sidebar on the left with options for Location (All), Activity (Swimming), Day (All), Class (Stage 2, Stage 3), Start Times (All), and Teachers (All). The main area shows a table of courses with columns: Students, Day, Time, Class, Teacher, No., Min, Loc, Act, Term, Section, Notes, and Places. The table lists several swimming classes with their respective details.

A modal window titled 'Courses For The Aimes Family' is overlaid on the table. It contains the text: 'The table below shows all courses that members of The Aimes Family are scheduled to attend.' It has two sections: 'Active Courses For Little' (with a note 'Little is not currently on a course') and 'Active Courses For Other Family Members' (with a table showing one course for 'Little' at 'Andover' on 'Swimming' at 'Stage 1' on 'Mon 11:30 AM' in 'October 2022').

## Exciting New Enhancement!

Our developers have been very busy in the background, working on an enhancement to SwimSoft Online which we think you will find really useful! Historically, if you operate from more than one location, or offer more than one type of activity, you would have to go in and out of each to see the place availability on each of the activity / location courses. With our new enhancement, you will be able to see spaces at multiple locations on different activities all in one place!

You are also able to add / remove permissions for different staff members to be able to view different activities / locations.

You can already see matched courses on the Place Availability checker within one activity – with this new functionality, you will be able to see, for example, if you have space on a yoga class for Mum, at the same time as her child is swimming!

This functionality is only active on a handful of clients systems at the moment, but will be rolled out gradually for all clients. If you would like this to happen sooner rather than later, please let the Support team know!

In the meantime, you can find a bulletin giving more information within your Knowledge Base!

## STA Conference 2022

Emma will be up at the STA Conference, at the Pool Plant day, and Richard, Willow and Lisa will also be at the main conference on Saturday. MOR Solutions will be sponsoring everyone's first drink at the Disco and Networking evening on the Friday night, and we have LOTS of exciting things going on, so if you are at the conference please make sure you come and see us!!

## Free Client Webinar - Awards

Prior to the pandemic, we were starting to run Webinars for SwimSoft Online users to offer more in-depth knowledge on different areas of the software. We have been working on restarting these, and are very pleased to announce that we will be holding our next Client Webinar on Wednesday 23rd November at 8.30pm. The webinar will be covering the Awards functionality within SwimSoft Online and Client Hub.

What will be covered?

- Marking as passed
- Issuing awards
- Overprinting certificates
- Charging for certificates
- Parents ordering awards via the Client

Hub

- And more!

# December

I am still dodging using the actual word!! But just a reminder that this year we will have a shorter closure period with the office only being closed from 4pm Wednesday 21<sup>st</sup> December, reopening at 9am on Tuesday 2<sup>nd</sup> January.
